

Healose™

Healose™ is a glyconutritional formula. This means it contains *The GOOD SUGARS*, called saccharides, which the body needs for health and healing. Glyconutrients are indispensable for the body's ability to cleanse, recover, repair, and defend itself from attacks from the outside. Glyconutrients facilitate *all* cell-to-cell communication. All processes, substance conversions, absorptions and secretions are managed by these biologically active sugars.

There are over 200 known saccharides in nature, 8 of which are essential for the healthy functioning of all human cells. Along with other single saccharides, the Healose™ formula combines the finest natural sources of aloe and Fulvic Acid to deliver these 8 “sugars that heal.”

Fulvic Acid

What sets Healose™ apart from any other product making similar claims is its primary ingredient, Fulvic Acid, **the most complex atomic structure on earth**. Scientists agree that Fulvic Acid is basic to all life. No organic matter can exist without it.¹ Research also shows that the Fulvic Acid found in Healose™ has actual *fountain-of-youth-like* health properties. Historic medical use of Fulvic Acid is ongoing and dates back thousands of years in remote regions of the Himalayas, China, and Russia, where people today still have the longest recorded life-spans – some approaching 160 years.²

Fulvic Acid is extremely absorbable. When this unique substance literally bonds with life-

essential minerals, mineral absorption approaches 100%.

Remarkably, Fulvic Acid also forms complexes with viruses and other immune threats, inhibiting absorption and promoting elimination. Hundreds of advanced studies from scientists all around the world proclaim the discriminating properties of the Fulvic Acid, found in Healose™, to be “incredible”, “amazing”, “miraculous”, “magical”, “phenomenal”³!

Aloe, Fulvic Acid & “The Concert Equation”

NutriHarmony founder and formulator, Patrick Shelley, has orchestrated what he refers to as the “*concert equation*,” bringing together a “*symphony of saccharides*” in which each ingredient mutually enhances the performance of every other ingredient. Shelley, as master conductor of the concert, has ensured that the final performance of Healose™ is truly greater than the sum of its parts.

A medley of the finest aloe sources available has created the Harmonized Aloe™ in Healose™. The benefits of aloe are legendary *because* it contains many of the saccharides essential for healthy body functioning. When Fulvic Acid, an unparalleled source of saccharides and Harmonized Aloe™ form a complex such as that found in Healose™, the effectiveness of this duet far exceeds the phenomenal performances they are already renowned for alone.

This unprecedented combination further enhances other individual saccharides found within the Healose™ formula, such as arabinogalactan (*Iarix decidua*), completing Shelley's “*concert equation*.”

Modern medical research points directly to all the following benefits:

- Supercharges your immune system
- Helps neutralize and remove toxins
- Promotes exceptional health of the thymus gland
- May help balance the thyroid system as immune system stabilizes
- Helps blood sugar become more balanced
- Helps purge parasites, pathogens, and viruses from your body
- Supports the body's cleansing processes
- Acts as a powerful natural anti-inflammatory agent and antioxidant
- An anti-aging marvel
- Feel increased energy and endurance
- Notice improved skin, nails, and more youthful complexion
- Feel improved digestion and bowel function
- See absolutely amazing healing of burns, cuts, and bruises
- Experience increased circulation and oxygenation
- Feel better and more alert mentally
- Experience improved memory and brain function
- Notice renewed energy and motivation
- Revitalize sexual functions & desire

An Athlete's *Healose*[™] Success Story!

I have competed in mountain bike races in the Arizona State Championship Series for five years, and participate in endurance races (solo distance and 24-hour team events) from time to time. My two greatest challenges in endurance competition have always been recovery time and muscle cramping. I find it difficult to shuttle lactic acid out, and nutrients back into my muscles during the rest periods between stints on the bike.

On short notice, I was invited to join a team for a 24-hour race in the Old Pueblo, held near Tucson, AZ on February 14th & 15th, 2004. I was not properly trained and prepared for the event, so I anticipated extra challenges with recovery and cramping. I'm sure these problems would have presented if not for one nutritional supplement – Healose[™].

I took Healose[™] along with my Nutri-Harmony MRP shake, which I consumed immediately after each stint. To my amazement, my legs were refreshed for each 16.5-mile lap, and I was able to push to my limit with no hint of cramping! My lap times were on par with last year's, when I was in peak form. In short, my performance far exceeded my expectations.

Athletes are constantly bombarded with the "latest and greatest" innovations from sports nutrition companies. Most of these products are manufactured with synthetic compounds. There are always drawbacks and they never perform quite as advertised. (I've tried my share.) What a pleasant surprise to find a natural supplement that really works!

Join The Wellness Revolution

"Every disease can be traced to a lack of minerals in the diet."

-- Linus Pauling

As this millennium unfolds, new levels of health never before possible on earth are now in the foreseeable future. We are moving toward the real human potential for wellness, strength, life expectancy and disease-free living. Healose[™] is here to ensure the highest quality of life as we cross this threshold. Over 75 million baby boomers are demanding a change in modern medicine. In fact, over 50% of patients have, or are using, some form of alternative medicine.⁴ NutriHarmony is meeting this growing demand with a superior line of nutritional products and the introduction of Healose[™]. NutriHarmony is delivering products proven to have a dramatic impact on many of the health challenges that afflict us today.

"The cell is immortal. It is merely the fluid in which it floats which degenerates. Renew this fluid at intervals, give the cells what they require for nutrition and, as far as we know, the pulsation of life may go on forever."

*– Dr. Alexis Carrel,
Nobel Prize in Medicine*
